Contents Volume 233 June 2001

Volume 233 No. 1

Salt-stress effects on avocado rootstock growth. I. Establishing criteria for determination of shoot growth sensitivity to the stress
N. Bernstein, M. Ioffe and M. Zilberstaine **1–11**

Mycorrhizal associations in the Patagonian steppe, Argentina
S. Fontenla, J. Puntieri and J.A. Ocampo **13–29**

A critical comparison of the external and internal boron requirements for contrasting species in boron-buffered solution culture
A. Asad, R.W. Bell and B. Dell **31–45**

Effects of P fertilisation and ectomycorrhizal fungal inoculation on early growth of eucalypt plantations in southern China
D. Xu, B. Dell, N. Malajczuk and M. Gong **47–57**

Simulation study of nutrient uptake by plants from soilless cultures as affected by salinity buildup and transpiration
M. Silberbush and J. Ben-Asher **59–69**

Effects of fertility management strategies on phosphorus bioavailability in four West African soils
S. Sinaj, A. Buerkert, G. El-Hajj, A. Bationo, H. Traoré and E. Frossard **71–83**

Inoculation with arbuscular mycorrhizal fungi enhances growth of *Litchi chinensis* Sonn. trees after propagation by air-layering
D.P. Janos, M.S. Schroeder, B. Schaffer and J.H. Crane **85–94**

Aluminium-induced changes in the surface and micropore properties of wheat roots: a study using the water vapor adsorption-desorption technique
G. Jozefaciuk and A. Szatanik-Kloc **95–108**

Douglas-fir root biomass and rooting profile in relation to soils in a mid-elevation area (Beaujolais Mounts, France)
T. Curt, E. Lucot and M. Bouchaud **109–125**

Analysis of water- and nitrogen-use efficiency of wheat in a Mediterranean climate
S. Asseng, N.C. Turner, B.A. Keating **127–143**

Volume 233 No. 2

Analysis of soil moisture variations in an irrigated orchard root zone
A. Polak and R. Wallach **145–159**

Allometric relationships in young seedlings of faba bean (*Vicia faba* L.) following removal of certain root types
A. Eshel, Ch.S. Rao, A. Benzioni and Y. Waisel **161–166**

Large contribution of arbuscular mycorrhizal fungi to soil carbon pools in tropical forest soils
M.C. Rillig, S.F. Wright, K.A. Nichols, W.F. Schmidt and M.S. Torn **167–177**

Combined effects of drought and high temperature on water relations of wheat and sorghum
S. Machado and G.M. Paulsen **179–187**

Effects of six years atmospheric CO_2 enrichment on plant, soil, and soil microbial C of a calcareous grassland
P.A. Niklaus, M. Wohlfender, R. Siegwolf and C. Körner **189–202**

Differences in above- and below-ground responses to ozone between two populations of a perennial grass
L.C. Yoshida, J.A. Gamon and C.P. Andersen **203–211**

Modeling water content of a vineyard soil in the Douro Region, Portugal
M.T. Oliveira **213–221**

Sampling DNA from the rhizosphere of *Brassica napus* to investigate rhizobacterial community structure
A. Macrae, C.M.M. Lucon, D.L. Rimmer and A.G. O'Donnell **223–230**

Availability of the residual nitrogen from a single application of ^{15}N-labelled fertilizer to subsequent crops in a long-term continuous barley experiment
M.J. Glendining, P.R. Poulton, D.S. Powlson, A.J. Macdonald and D.S. Jenkinson **231–239**

Soil conditions and regeneration after clear felling of a *Pinus sylvestris* L. stand in a nitrogen experiment, Central Sweden
L. Högbom, H.-Ö. Nohrstedt, H. Lundström and S. Nordlund **241–250**

A comparison of soil quality in adjacent cultivated, forest and native grassland soils
A. Saviozzi, R. Levi-Minzi, R. Cardelli and R. Riffaldi **251–259**

Effects of NaCl and Na_2SO_4 on red-osier dogwood (*Cornus stolonifera* Michx) seedlings
S. Renault, C. Croser, J.A. Franklin, J.J. Zwiazek **261–268**

Preinoculation of lettuce and onion with VA mycorrhizal fungi reduces deleterious effects of soil salinity
I.C. Cantrell and R.G. Linderman **269–281**

Influence of a pulsed nitrogen supply on growth and nitrogen uptake in alpine graminoids
W.D. Bowman and C.J. Bilbrough **283–290**

Volume Contents **291–292**

Author index **293**
